

Schaerer Siena

The perfect, dependable solution for every small business.

Small, smart and fully automatic.

Exquisite taste with the perfect “crema” cup after cup. The new Schaerer Siena can be counted on to produce an espresso that will satisfy coffee connoisseurs everywhere. This user-friendly machine has five individually programmable product buttons to supply your particular coffee requirements. It also includes the capability for decaffeinated products to fulfil the desire for healthy alternatives. By popular request, we now offer the option of direct water connection instead of the built-in water tank. Your customers, employees, guests, business partners and friends will thank you for having the opportunity to enjoy espresso as it was meant to taste!

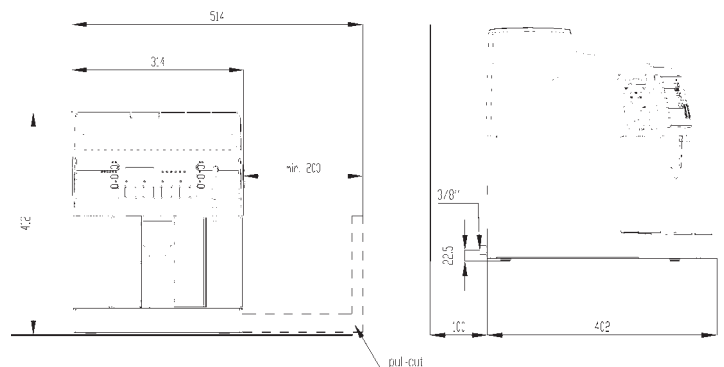

- Clear user panel layout with large product buttons.
- User-friendly LCD display in multiple languages.
- Independent heating elements for simultaneous coffee and steam.
- Thermoplastic brewing unit as used in professional coffee machines.
- High quality stainless steel grinder discs.
- Milk frothing device for “designer” coffee drinks.
- Adjustable coffee spout to allow for cups, glasses or pots.

Options:

- Various bean hopper capacities (from 250 up to 1000g)
- Coin or token tester for vending applications
