

When fully automatic perfection looks and tastes like it was made with love.

With the Schaefer Coffee Soul 2-step-configuration, you take control of milk frothing yourself— for simultaneous preparation, ultimate flexibility, and perfect results.

The Soul 10 and 12 can be set up as powerful 2-step machines. With this setup, you froth the milk by hand while the espresso brews. Both steps happen at the same time—making your drink faster and giving you more options, like plant-based milks. And since there's no milk system or cooling unit needed, maintenance and cleaning are easier and more affordable, helping your operation run smoothly.

The Soul 2-step-configuration delivers value in many ways:

TIME SAVINGS

Steam milk while brewing espresso at the same time

MORE VARIETY

Offers exceptional flexibility for plant-based milk options

BARISTA STYLE

Easy operation gives every team member that "Barista vibe"

COMPACT FOOTPRINT

Less equipment and accessories needed on the counter

Choose from three powerful steam wands:

POWERSTEAM

Manual heating and frothing
Not available in Canada

AUTOSTEAM

Fully automatic heating with manual frothing (programmable temperature)
Not available in Canada

SUPERSTEAM

Fully automatic heating and frothing (programmable temperature and milk foam texture)
